

SLIDING DOOR CLOSER

The Sliding Door Closer delivers smooth, controlled closing on heavier interior doors. Its slide-rail arm mechanism protects the door and frame from slamming, while multiple valve settings tune the closing and latching speeds to suit each door.

» Features:

- » Slide-rail (track) arm mechanism
- » Size 4 closing power
- » Hold-open function
- » Opening angle limiter
- » 4 valve settings for adjustable closing and latching (impact) speed
- » Suitable for metal and steel doors
- » Silver finish

» Specifications:

- » Slide-rail arm type
- » Max door size 1050 x 2400 mm
- » Door weight range 15 to 80 kg
- » Adjustable closing and latching speed
- » Silver finish
